## DANITIES ICHABA – FULL STACK DEVELOPER

---

### SUMMARY

I am full-stack developer with

- Creative problem-solving abilities
- Ability to work with a high level of detail-orientation.
- Ability to learn new software and technologies quickly.
- Capacity to be flexible and multitask.
- Ability to communicate effectively with team members and leadership staff in English.
- Possessed computer science degree.

### Knowledgeable in:

- Design pattern
- Git
- Github
- Agile methodologies
- Debugging processes.
- Ability to learn from each other irrespective of level
- Very good in collaborating with others
- MVC methodologies

### I used

- Javascript
- Nodejs
- Java(fundamentals)
- Python (fundamentals)
- Reactjs
- Postgresql
- SQL
- MongoDB
- CSS and HTML

to build back-end and front-end solutions that can give users better experiences. Although I am more confident providing backend solutions. I have equally learned the fundamentals of Java and Python in the course of my studies in the university(but not very efficient in them yet).

## Working experience
